45-Day Rate Lock Policy

We'll lock an interest crediting rate on fixed annuities, cap rate or participation rate only on fixed index annuities for 45 calendar days* from the day we receive the original application, if we receive paperwork within the timelines below.

We don't provide a rate lock for fixed interest crediting rates on index annuities or minimum guaranteed rates.

If we receive the expected premium within the 45-day period*, your client receives either the locked-in rate or the current rate on the day we receive the premium – whichever is higher.

- **If rates are increasing:** Sign and date the application and all required supplemental forms **on or after** the rate increase effective date.
- **If rates are decreasing:** Sign and date the application and all required supplemental forms **before** the rate decrease effective date. We'll also need to receive your documents in our home office within four business days of the rate change effective date.
