

Individual Disability Insurance for Tech Firms

Technology companies must offer highly valued benefits such as individual disability insurance to attract and keep top talent.

Could your employees withstand an unexpected large drop in income? How would they pay bills, fund retirement plans and maintain their lifestyles? You can help reduce the financial uncertainty that can come with an extended time away from work due to injury or sickness.

Include The Standard's individual disability insurance in your benefits package. It provides a monthly benefit if the insured person were to become too injured or sick to work.

Extra Income Protection Is Critical for Tech

Tech employees often have larger incomes so they have more to protect. Many firms provide group long term disability insurance — a great income protection foundation. But LTD maximum benefit amounts can cause an income-replacement gap for your high earners. Give them an extra layer of protection with individual disability insurance.

Comprehensive Core Benefits

The Standard's individual disability insurance includes strong core benefits in addition to a benefit for total disability. Always noncancelable and guaranteed renewable, it also provides built-in features such as benefits for disability due to transplant surgery or for being presumptively disabled.

Individual disability insurance is offered at deep discounts with no medical underwriting. Plus, rates are locked in for the life of the policy and your employees can keep the policy if they change employers.

Talk to your broker about adding individual disability insurance to your benefits plan today.
